

# ARKANSAS INDUSTRIAL COMPUTING, INC.

*Industrial Automation Integrators*

## About AIC

- We are a total solutions company utilizing leading edge software and hardware technology to provide automation solutions to large and small companies across the country since 1993.
- Our control systems can fully integrate plant-wide information, improve response time, decrease downtime and allow users to anticipate and react to equipment malfunctions.
- We use our experience and our working knowledge of industrial systems to address existing and growing automation needs. Our systems change with the advancement of technology and are designed with flexibility and future expansion in mind.

## Experience

Data Collection and Reporting  
Database Systems

Barcode Systems  
Machine Vision  
Network Installation and Configuration

Statistical Process Control  
Control Panel Design and Fabrication  
and more . . .

## Capabilities

### Software

Microsoft® Windows®  
Programming 95/98,  
NT®, 2000  
Borland® Delphi®  
IndustrialSQL Server  
Microsoft® Visual Basic®  
Microsoft® Access  
Microsoft® SQL Server™  
Paradox®  
Oracle®  
OSI PI

### Network Installation and Configuration

Windows® 95/98, 2000  
Windows® NT® Server

### Human-Machine Interfaces

Intellution® Fix32/iFix™  
RS-View32™  
Wonderware® InTouch®  
Citect™  
Interact  
WinCC™

### Industrial Networks

DeviceNet™  
ControlNet  
Profibus  
Industrial Ethernet  
Data Highway  
Remote I/O

### Bar Code Systems

RF Scanning Systems  
Fixed Scanners  
Hand-held Scanners  
Barcode Printing Systems  
Label Design

### Control Systems

Siemens  
Allen-Bradley  
GE  
Square D  
OMRON®  
Mitsubishi  
Modicon  
Moore Products  
Motion Control/CNC  
and more . . .
